The sun-dial was good enough to time the oldfashioned stage coach, but who would think of running a railroad by it? Old-fashioned merchandising methods are good enough for small and unprogressive merchants, but they won't do for this big, modern store.

The old-fashioned "bargain day" was the day when goods that hadn't sold during the week were forced out at low prices. It was essentially the day of undesirable goods—a kind of weekly ash-barrel into which the merchant dumped stuff he wished to get rid of.

Note the difference between this sort of Bargain Day and The Big Store's

in which appears only seasonable and highly desirable goods, at lower prices than they are marked on any other day of the week. Here's this week's list. Right reserved to limit purchases whenever deemed necessary. Telephone orders filled as long as specified lots last.
